

Student Performance Summary

Distribution of Student Performance

Subject	Number of Students Tested	Percent of Students Developing and Above
English Language Arts	41,219	75.2%
Mathematics	40,262	78.9%
Science	12,858	66.6%
Social Studies	14,345	78.4%

Percent of Students Developing or Higher by Learning Community

Highlights

- Across the district, the percent of students designated as developing, proficient, or distinguished learners is higher in English Language Arts, Math, and Social Studies than in Science.
- The percent of students scoring developing or higher is greatest in mathematics across all learning communities.

2018 Student Performance

by Grade Level

Grade Level	Number of Students Tested	Beginning Learners	Developing Learners	Proficient Learners	Distinguished Learners
3 rd	6,952	30.5%	26.1%	27.4%	16%
4 th	6,926	23.8%	26.2%	32.4%	17.6%
5 th	7,292	21.6%	29.3%	33.3%	15.8%
6 th	7,174	28.1%	25.1%	34.9%	11.9%
7 th	6,933	23.7%	30.4%	35.5%	10.3%
8 th	5,942	20.3%	34.5%	36.5%	8.8%

Highlights

- The percent of students developing or higher in ELA has increased since 2015 in both fifth and seventh grades (one percentage point gain for both).
- In 2018, the percent of students scoring proficient or higher in ELA exceeds the state percent in all grade levels, with the greatest difference in fourth grade where FCS outperforms the state by 9 percentage points.
- The 2018 ELA results were impacted by differences in the group of students tested, including:
 - 1st year English Language Learners were tested in 2018 for the first time. Overall the number of EL students tested in 2018 showed a 35 percent increase over the number of students tested in 2017.
 - Grade 8 students enrolled in an ELA course with EOC assessment did not participate in the grade level EOG assessment in 2018. As a result, FCS saw a 15 percent decrease in the number of Grade 8 ELA test takers compared to 2017.
- Substantial gains (greater than 15% increase in the number of students proficient or distinguished from 2017-2018) were achieved at Amana Academy (3rd grade), Barnwell ES (3rd grade), Spalding Drive ES (5th grade), Stonewall Tell ES (5th grade), Chattahoochee Hills Charter School (7th grade), and Main Street Charter Academy (7th grade)

2018 Results:

Percent of Students Reading On or Above Level

Highlights

- 4th and 7th grade saw an increase in the percent of students reading on or above grade level between 2017 and 2018 (1.7% and 0.1% increases, respectively)
- The classes of 2022, 2023, and 2024 have shown an increase in the percent of students reading on or above grade level compared to their cohort's performance in 2016.
- Substantial gains (greater than 15% increase in the number of students reading on or above grade level from 2017-2018) were achieved at Palmetto ES (3rd grade), Northwood ES (4th grade), Hapeville ES (5th grade), KIPP South Fulton (5th grade), Camp Creek MS (7th grade), and Main Street Charter Academy (7th grade).

Percent of Students Developing or Higher

2015-2018

Highlights

- The percent of students developing or higher has increased since 2015 in third, fourth, and seventh grades (one, two, and one percentage point gains, respectively).
- In 2018, the percent of students scoring proficient or higher in ELA exceeds the state percent in all grade levels, with the greatest difference in fourth grade where FCS outperforms the state by 6 percentage points.
- Substantial gains (greater than 15% increase in the number of students proficient or distinguished from 2017-2018) were achieved at Amana Academy (3rd and 5th grades), Barnwell ES (3rd), Chattahoochee Hills ES (3rd grade), Hillside ES (3rd & 5th grades), Seaborn Lee ES (3rd grade), Vickery Mill ES (3rd grade), Dunwoody Springs ES (4th grade), Northwood ES (4th grade), River Eves ES (4th grade), EC West ES (5th grade), KIPP South Fulton (5th grade), Palmetto ES (5th grade), State Bridge ES (5th grade), Wolf Creek ES (5th grade).
- In 2018, FCS experienced a 13 percent decline in the number of 8th grade students taking the Mathematics EOG due to higher rates of student participation in Algebra 1 in 8th grade.

Percent of Students Developing or Higher: Science 2015-2018

Percent of Students Developing or Higher: Soc Stu 2015-2018

Highlights

- FCS has achieved an increase in the percent of 5th grade students (1 percentage point increase) and 8th grade students (10 percentage point increase) designated as developing or higher in Social Studies since 2015.
- The percent of students proficient or higher for Science and Social Studies in FCS exceeds the state percent in all tested grades for 2018 with FCS out performing the state by at least four percentage points in each area.
- Even with the implementation of new state standards for social studies and science, FCS made gains in eighth grade Science and fifth and eighth grade Social Studies. Substantial gains (greater than 15% increase in the number of students proficient or distinguished from 2017-2018) were achieved at seven schools in Science and ten schools in Social Studies. The greatest gains across the district were at Amana Academy (26.1% increase in 8th grade Science) and Alpharetta Elementary (28.4% increase in 5th grade Social Studies).

2018 Results: Algebra I

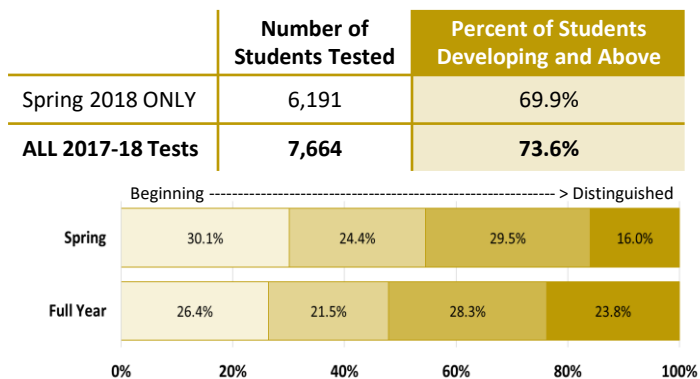

Percent of Students Developing or Higher

2015-2018 (all tests)

2018 Results: Geometry

Highlights

- 6,191 FCS students took the Geometry EOC during the spring 2018 semester, with an additional 1,473 students testing in the fall semester. As a result, state reported results from spring 2018 vary from FCS's overall results for SY2017-18.
- When considering all tests from the school year (fall and spring), the percent of students scoring developing or higher has increased in both Geometry and Algebra 1 since 2015 (two and six percentage points, respectively).
- The percent of students scoring proficient or higher in Algebra 1 (51%) and Geometry (46%) during the spring testing window exceeds the spring 2018 state performance by 13 and seven percentage points, respectively.
- When considering only spring test-takers, ten high schools saw an increase in the number of students scoring proficient or higher in Geometry from 2017 to 2018. Of these schools, a substantial gain (greater than 15 percentage point increase) was achieved at Riverwood HS.
- Five middle schools and 15 high schools saw an increase in the number of students scoring proficient or higher in Algebra 1, with a district-wide increase of 7.7 percentage points. Of these schools, substantial gains (greater than 15 percentage point increase) were achieved at Bear Creek MS and Alpharetta HS.

ALL 2017-18 Tests	3,948	75.3%

Highlights

- During the 2017-18 school year, FCS saw a substantial decrease in the number of students taking EOC assessments in Biology and Physical Science (12 and 24% percent, respectively).
- The percent of students scoring developing or higher has increased by 15 percentage points in both Biology and Physical Science since 2015.
- The percent of students scoring proficient or higher in Biology (63%) and Physical Science (53%) exceeds the state performance by 14 and ten percentage points, respectively.
- Thirteen high schools saw an increase in the percent of students scoring proficient or higher in Biology from 2017 to 2018, with a district-wide increase of 12 percentage points. Of these schools, substantial gains (greater than 15 percentage point increase) were achieved at Langston Hughes HS, Creekside HS, Skyview HS, Hapeville Charter, and Westlake HS.
- Seven middle schools and eleven high schools saw an increase in the percent of students scoring proficient or higher in Physical Science from 2017 to 2018, with a district-wide increase of 12 percentage points. Of these schools, substantial gains (greater than 15 percentage point increase) were achieved at Riverwood HS, Sandy Springs MS, and Westlake HS.
